Boss Holdings, Inc. Second Quarter 2020 Report

Boss Holdings, Inc. and its subsidiaries (collectively, the "Company") currently operate in three business segments. Boss Pet Products, Inc. ("Boss Pet") distributes a wide range of pet supplies through direct marketing to professional groomers, boarders and veterinarians on its PetEdge websites and via catalog, as well as wholesale distribution to retailers. Galaxy Balloons, Incorporated is our industry award-winning custom imprinter and distributor of promotional and specialty products. Aries Manufacturing is a nationwide distributor of cell phone accessories.

In December 2019, the Company's legacy work glove and protective wear segment was sold to Protective Industrial Products, Inc. ("PIP"). Information concerning the work glove and protective wear segment now is reported under discontinued operations in the Company's consolidated financial statements. Prior year results have been reclassified where applicable to reflect this change.

Executive Summary

Consolidated revenues from continuing operations for the six months ended June 27, 2020 were \$23,352,000, down \$2,213,000 compared with the comparable period in fiscal 2019, an overall decrease of 8.7%. All three business segments were adversely affected by the coronavirus pandemic which had a devastating global impact during the second quarter. Pet supply segment revenues for the six months increased by \$898,000 compared with the same period in 2019. Adverse coronavirus impacts on our pet supply operations primarily have been related to constrictions in the supply chain due to manufacturers experiencing plant closures and capacity limitations resulting from social distancing for line workers and related workplace restrictions. Coronavirus conditions have more strongly affected our other businesses with promotional product revenues decreasing \$2,368,000 in the first six months of 2020 compared with last year and cell phone accessories segment revenues falling \$743,000 for the first six months compared with last year. Both of those segments have experienced some recovery in revenues since the end of the second quarter, as management continues to closely monitor operations. Discontinued operations incurred a net loss of only \$1,000 during the second quarter, with most of the expected administrative and severance costs resulting from the sale of the work glove and protective wear operations to PIP having been incurred during the first quarter.

Revenue Trends

The pet supply segment reported increased revenues through the second quarter continuing its upward trend since acquisition of the PetEdge assets in April 2018. Both the grooming division and retail division were up versus the prior year. Ongoing internal efforts to combine the PetEdge business with our longstanding Boss Pet operations have resulted in combined inventories and streamlined internal reporting and financial functions.

With continued revenue decreases at the cell phone accessory and promotional products segments, management has imposed significant cost-cutting initiatives while pushing for new revenue sources. New products include safety signage, imprinted masks, hand sanitizers and new cell phone accessory offerings set to release in late fiscal 2020.

Profitability

For the six months ended June 27, 2020, the Company incurred a consolidated operating loss from continuing operations of \$2,047,000 and an operating loss from discontinued operations of \$277,000 (before taxes). Operating losses from continuing operations were due primarily to corporate overhead expenses and COVID-related revenue headwinds at the promotional product and cell phone accessory segments. Operating expenses during the first six months of 2020 were down \$370,000 compared with the same period in fiscal 2019 reflecting continuing cost reduction and containment measures across all segments along with reduced business travel and trade show expenses caused by COVID-19. Losses from continuing operations before income taxes decreased for the quarter and six months ended June 27, 2020 compared with 2019. The loss from discontinued operations was due to restructuring and severance costs stemming from the PIP sale, most of which occurred in the first quarter.

During the second quarter, the Company recognized an unrealized (non-cash) gain of \$883,000 on marketable securities (a total of \$897,000 for the six months). As previously reported, such holdings are "marked-to-market" at the end of the period and unrealized gains or losses are reported although the underlying securities still are held by the Company.

Liquidity and Capital Resources

The Company's holdings of cash and cash equivalents decreased through the second quarter of 2020 to \$25,518,000 compared with \$26,744,000 at 2019 fiscal year-end, predominantly due to the payment of accounts payable (\$898,000) and accrued liabilities (\$960,000) related to discontinued operations. Current continuing operations provided \$935,000 of cash during the first six months of 2020. During the same period, the Company utilized \$152,000 of cash for capital investment, primarily to purchase material handling equipment at the pet supply segment and furniture and fixtures at the corporate office.

On June 27, 2020, the Company held a total of \$25,518,000 in cash and cash equivalents. Management believes the Company's cash and cash equivalents provide ample liquidity for the Company's expected working capital and operating needs.

Operations under COVID-19 Conditions

As previously footnoted in the Company's 2019 year-end audited financial statements, on January 30, 2020 the World Health Organization declared the COVID-19 coronavirus outbreak a Public Health Emergency of International Concern and on March 11, 2020 declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus, including national, regional and local quarantines, significant restrictions on travel and forced closure of many public facilities, have adversely affected businesses worldwide and are expected to continue to have an adverse economic impact within the markets in which the Company conducts operations. While it is unknown how long these conditions will continue and what the complete financial effect will be, the Company is expecting to experience a decline in revenue from continuing operations during the remainder of 2020 and it is reasonably possible that the Company could be vulnerable to risk of significant near-term impact.

The Company's pet supply and cell phone accessory segments have remained open for business throughout 2020 despite the coronavirus conditions. Our distribution centers in Reno, Nevada and Kewanee, Illinois have been deemed essential infrastructure or otherwise permitted to continue operations with due attention to employee social distancing and workplace sanitization

requirements. We have continued to accept and fulfill incoming orders for both pet products and cell phone accessories throughout this period in a safe and timely manner. Aries' normal distribution channels (convenience stores, truck stops and travel centers) have been adversely affected by coronavirus impact on the travel industry and many of the trade shows critical to new and continuing customer contact in this market segment have been postponed or suspended. Due to state and local stay-at-home orders, our Galaxy Balloons operations were closed for approximately six weeks during late March and April. Although Galaxy reopened for business in early May, operations have been significantly reduced from pre-COVID levels and Galaxy management has implemented staff reductions and temporary salary reductions. Although Company management cannot predict when our national economy and normal social activities will resume, we continue to monitor conditions closely and will act accordingly.

Stock Buyback Program

Effective June 30, 2020, the Company's Board of Directors authorized a stock buyback program (the "2020 Buyback Program") pursuant to which the Company may purchase shares of the Company's common stock in an amount up to \$2,000,000, at such prices, and on such terms and conditions as are determined by appropriate officers of the Company from time to time. The Company's Board of Directors in its discretion may extend, curtail, amend or terminate the 2020 Buyback Program at any time.
